HEALTH QUIZ

How much do you know about what makes up a healthy lifestyle? Here's a pop quiz:

1. How do you define working out?

- A. Going to the gym.
- B. Turning the jump-rope for the neighbor's kid.
- C. Playing Frisbee with your dog.

2. How do you define good nutrition?

- A. Eating a vegetable at every meal.
- B. Eating two vegetables at every meal.
- C. Drinking a fruit smoothie for breakfast.

3. Which of these is a healthy activity?

- A. Push-ups, sit-ups, or running the track.
- B. Walking the dog after dinner.
- C. Spending Saturday afternoon snoozing on the sofa.

Believe it or not, the correct answer to every question is A, B, *and* C -- even that Saturday afternoon snooze! Sneaking healthy habits into our daily living is easier than we think!

\$10 A MONTH EXTRA

HEALTHY RECIPE

SPICED BLUEBERRY PIE

The blueberry filling for this pie is made with a base mixture of blueberries cooked with spices (including black pepper) into which fresh, uncooked blueberries are stirred. The filling is poured into a prebaked gingersnap crust, made with milk and olive oil instead of butter.

- 36 gingersnaps (9 ounces)
- 1/3 cup plus 2 tablespoons sugar
- 1/4 cup low-fat (1%) or fat-free milk
- 2 tablespoons extra-light olive oil
- 3 tablespoons cornstarch
- 1 teaspoon grated orange zest
- 1/2 teaspoon cinnamon
- 1/8 teaspoon pepper
- 6 cups fresh blueberries
- 1/2 cup orange juice

Nutrition information per wedge

- calories 305
- total fat 9g (saturated 1.6g)
- cholesterol 1mg
- dietary fiber 4g
- carbohydrate 55g
- protein 3g
- sodium 125mg
- good source of anthocyanins

1. Preheat the oven to 375°F. In a food processor, process the gingersnaps and 2 tablespoons of the sugar until fine crumbs are formed. Add the milk and oil and process until evenly moistened.
2. Spray a 9-inch pie plate with nonstick cooking spray. Press the gingersnap mixture into the bottom and up the sides of the pie plate. Bake for 12 minutes to set. Cool on a wire rack.
3. Meanwhile, in a small bowl, combine the remaining 1/2 cup sugar, the cornstarch, orange zest, cinnamon, and pepper.
4. In a medium saucepan, combine 3 cups of the blueberries and the orange juice. Bring to a boil over medium heat. Stir in the sugar-cornstarch mixture, return to a boil, and cook, stirring frequently, until thickened, about 5 minutes.
5. Remove from the heat and stir in the remaining 3 cups blueberries. Spoon the blueberry mixture into the pie shell and refrigerate until serving time.

GETTING FIT

Exercise in a fitness center, club, or even at home. The key is to do something! Doing anything is better than nothing!

Locating the Time for Exercise

- *Find the time* - for one week write down where you spend your time; find points that could be changed to free a bit of time everyday.
- *Start by increasing your daily activity* - walk to the store, take the baby or the dog for a walk, take a walk up and down the stairs at work, walk on your lunch break, garden, etc. If you sit most of the day get out of your chair every 20 minutes and move around the office.
- *Schedule an appointment to exercise* - schedule a time that works best for you and stick to it!
- *Exercise while waiting* - for the children to complete their piano lesson, soccer practice etc.
- *Consider purchasing home exercise equipment* - prior to deciding to invest be certain you will use it. Durable equipment is not inexpensive!
- *Be sure to take turns giving your meaningful other or friend a break to workout* - by watching the children or sitting with a member of your family that can't be left alone.
- *Make exercise a high priority* - when getting in shape is your goal you have to make exercise a priority to reach that goal.

HEALTH QUICKS

TIPS FOR HEALTHIER HOLIDAYS:

Try eating a little bit before you go to Thanksgiving dinner with the family which will help with the overeating that usually goes along with every meal during the holidays.

Drink more water. Water will help fill you up so you do not feel as hungry when you sit down to eat.

Eat healthy, and get moving. Eat plenty of fruits and vegetables. Limit your portion sizes and foods high in fat and sugar. Be active for at least 2½ hours a week and help kids and teens be active for at least 1 hour a day.

Manage stress. Don't over-commit yourself. This helps alleviate holiday anxiety and pressure.

Prepare food safely. Remember these simple steps: wash hands and surfaces often, avoid cross-contamination, cook foods to proper temperatures, and refrigerate promptly.

Practice fire safety. Most residential fires occur during the winter months, so be careful to never leave fireplaces, space heaters, stoves, or candles unattended. Have an emergency plan and practice it regularly.
